✦ AI. *air*

Sleep powered by air

The AI Sleepbot, powered by *Air Sleep Monitoring, serves as the driving force of a fully integrated sleep IoT ecosystem, built on three core innovations.

* Air Sleep Monitoring: With effortless, purely silent, and EMF-free sleep monitoring, it manages your sleep naturally — without disrupting the way you already sleep.

A New Sleep Journey with the AI *Sleep* bot

I System

AI Sleepbot 7-Series

A complete solution that monitors and manages your sleep while seamlessly controlling your sleep environment.

Available

Key Features

- Smart, effortless, and visibly effective anti-snoring.
- Seamless yet intelligent "Air" sleep monitoring.
- A newly defined solution for connected smart living.
- Life-AI sleep guidance powered by health insights

Specs

- Product Name : AI Sleepbot 7-Series
- Model : MSDKGNB
- Dimension : (L)200 x (W)158 x (H)115 (mm)
- Weight : 620g
- Power Input : 5V 2A (USB-C)
- Sensors : Air pressure, Temperature / Humidity
- Others : BT / Wi-fi Connectivity, Sleep Light, EMF free pillow, Extra Charging port (C-type)

Monitoring Items

- Sleep Time
- Snoring
- Snoring Recording (App)
- Airbag Operation
- Snoring Reduction Comparison
- Sleep Score
- Temperature / Humidity
- Tossing & Turning

App Features

Activity

8,262 steps walked
1,623 kcal exercised.

AI Coach's Daily Briefing

Today's calorie burn exceeds yesterday's and meet the recommended activity level.

This increase in activity can positively impact your overall health and energy levels.

Maintaining this momentum will contribute to better sleep quality and recovery.

Your step count is similar to yesterday.

8,262 Steps

AM12 AM6 PM12 PM6 (h)

Your level of physical activity has increased compared to yesterday.

1,623 kcal

Contour Flat Pillow

Material	Memory Foam
Features	Supports the cervical spine across all areas of the pillow when sleeping in a supine position.
Target	Suitable for users at risk of pressure sores or those who need to change positions frequently, offering ease of movement.

Contour Hybrid Pillow

Material	Memory Foam
Features	Provides cervical support at the center of the pillow when sleeping in the supine position. Designed to support proper alignment by accommodating shoulder height when sleeping on the side.
Target	Ideal for users who seek posture correction or primarily sleep on their side.
